

INTRODUCING NEW EXPANDED SECURE SHREDDING SERVICE AT CUSTOMER SITE

Penn Records Management will be providing secure collection containers at our clients' place of business and collecting the contents on a schedule convenient for the client.

All material is taken directly in a locked company vehicle to a NAID facility (National Association for Information Destruction, Inc.) protected by strict access and 24-hour video surveillance.

The material is shredded and compacted into huge bales & recycled. All federal and state laws are strictly enforced governing the confidentiality of your documents.

This new service is a cost-effective option for many of our clients:

Starting rates are from \$55.00 for the first 2 bins and \$10.00 for each additional bin

Call today for more information on how to get started.
